SUMMARY

Information Technology undergraduate with strong foundations in C++, Java, Go, JavaScript, and software development. Experienced in building real-time applications using Go, REST APIs, WebSockets, and WebRTC, with hands-on experience in MySQL. Familiar with software testing and performance testing using JUnit and JMeter. Developed scalable backend systems and AI-powered applications, including ClashMinds.ai, a real-time AI-powered debate platform. Solved 267 LeetCode problems, demonstrating strong problem-solving and algorithmic skills.

TECHNICAL SKILLS

Programming Languages: C++, Java, Go Lang, JavaScript

Web Technologies: Spring Boot, REST APIs, Jmeter, JUnit

Databases: MySQL

Developer Tools: GitHub, VS Code, Postman

Computer Science: Data Structures, Algorithms, Database Management Systems, Object-Oriented Programming, Operating Systems

EDUCATION

Dr. DY Patil Institute of Technology, Pimpri, India

Aug 2023 – May 2027

Bachelor of Technology in Information Technology

CGPA: 8.36/10.0

Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming, Computer Networks

Jijamata Junior College, Jalna, India

Jun 2021 – Mar 2022

Higher Secondary Certificate

Percentage: 70.67%

Kids Pride English High School, Chhatrapati Sambhajinagar, India

Jun 2019 – Mar 2020

Secondary School Certificate

Percentage: 96.40%

EXPERIENCE

Code Quest Competition, Pimpri, India

2024

2nd Position – Data Structures and Algorithms Contest

- Secured 2nd place in a coding competition focused on Data Structures and Algorithms organized by the IT Department.
- Demonstrated strong problem-solving and algorithmic thinking skills under time constraints.

PROJECTS

ClashMinds.ai — AI-Powered Debate Platform

[GithubLink](#)

Technologies: Go Lang, TypeScript, MongoDB, WebSockets, JWT, Google OAuth, WebRTC

- Developed a real-time debate platform that helps users improve argumentation and public speaking skills through AI-enhanced debates and peer-to-peer matchmaking.
- Engineered the backend using Go and Gin with MongoDB for data persistence and WebSockets for real-time synchronization across live debate rooms.
- Implemented JWT authentication, Google OAuth, along with WebRTC for real-time audio and video communication during team debates.
- Integrated AI-powered debate opponents, browser-based speech recognition for live transcription, and gamification features including leaderboards, badges, community feeds, and user progress tracking.

ACHIEVEMENTS

- Solved over 267 questions on LeetCode strengthening data structures and algorithmic skills.
- Completed NPTEL certifications in:
 - **Programming in Java (84%)**
 - **Ethical Hacking (61%)**
 - **Database Management Systems (71%)**
